

Spread Revisado

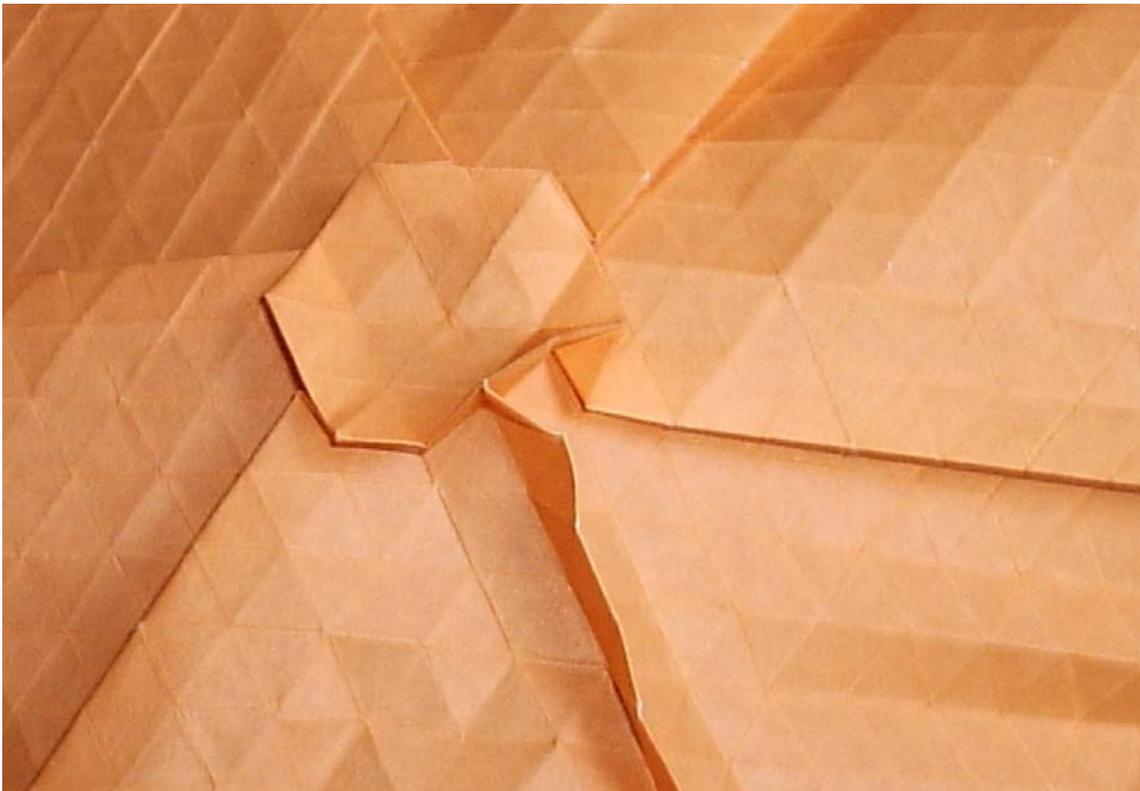

lembrei de um jeito mais fácil de fazer as camadas.

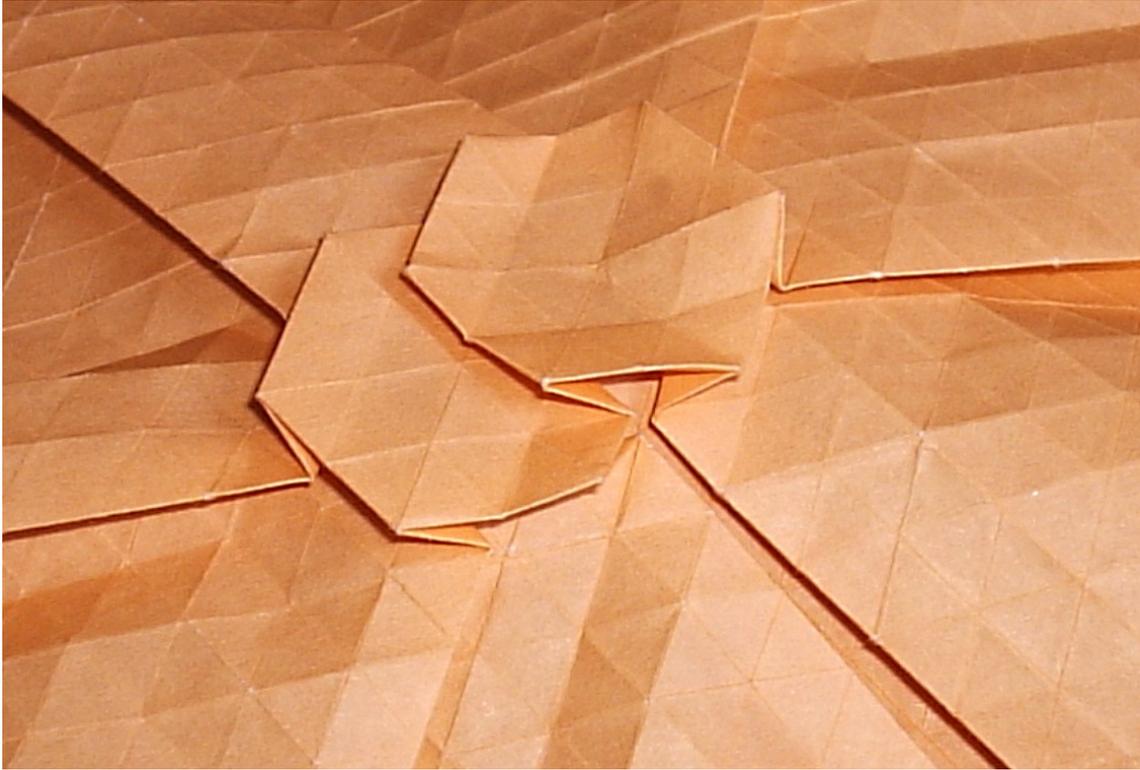

Observe que todas as pregas estão para o mesmo lado na foto acima

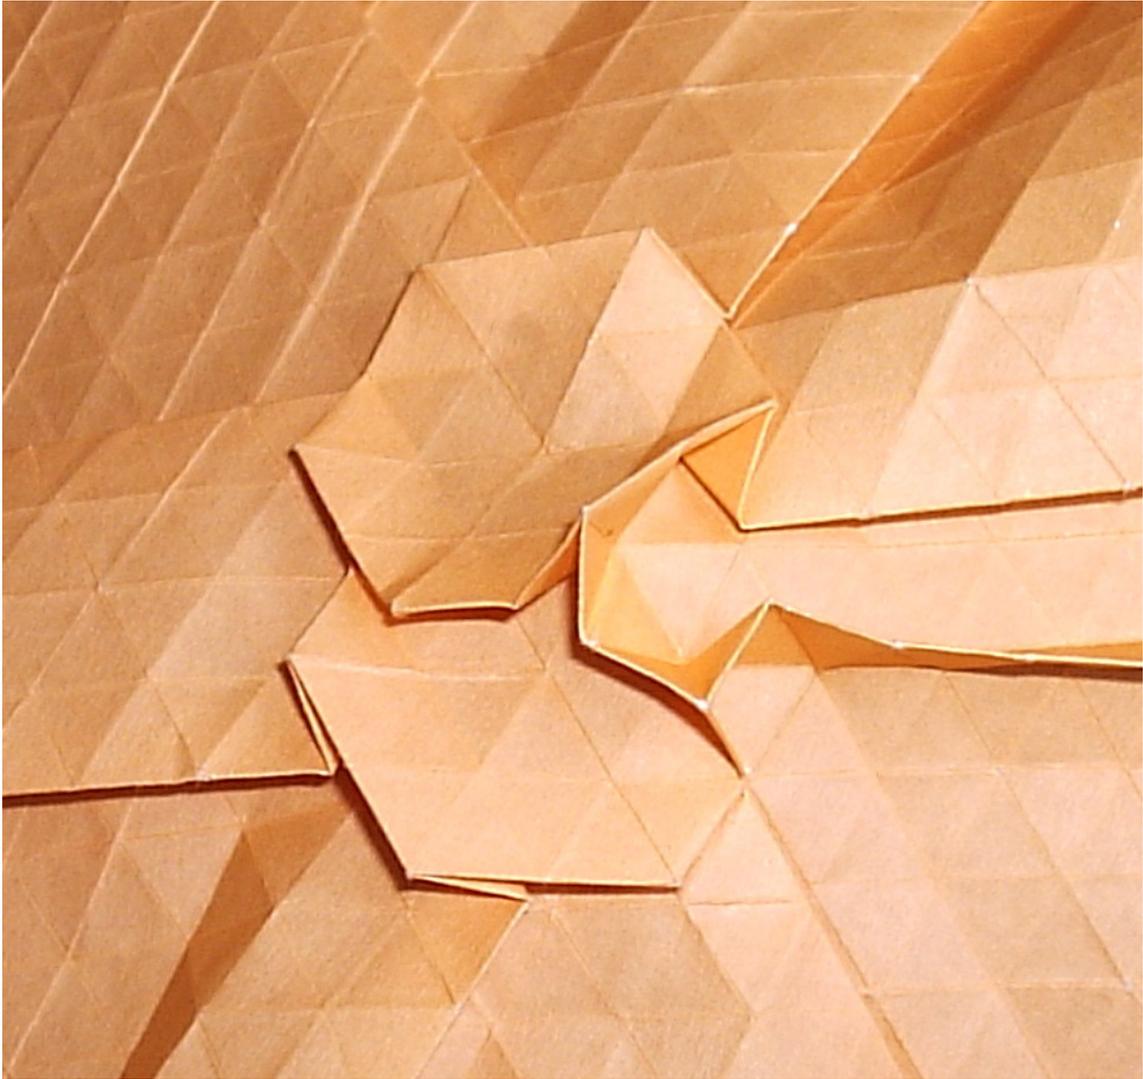

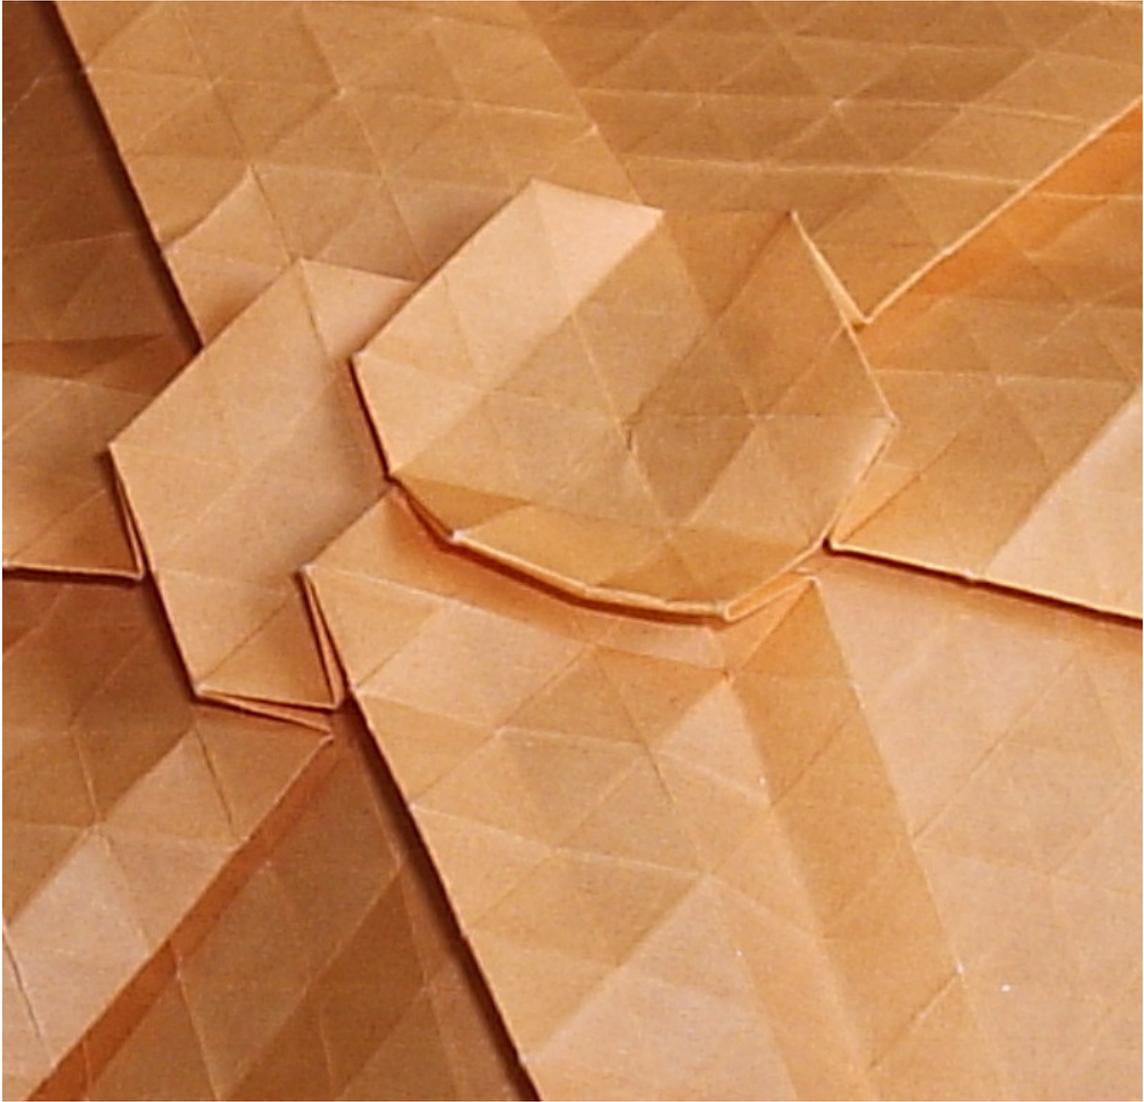

Na foto acima, vc inverte uma das pregas para facilitar na hora de fazer o próximo hexágono.

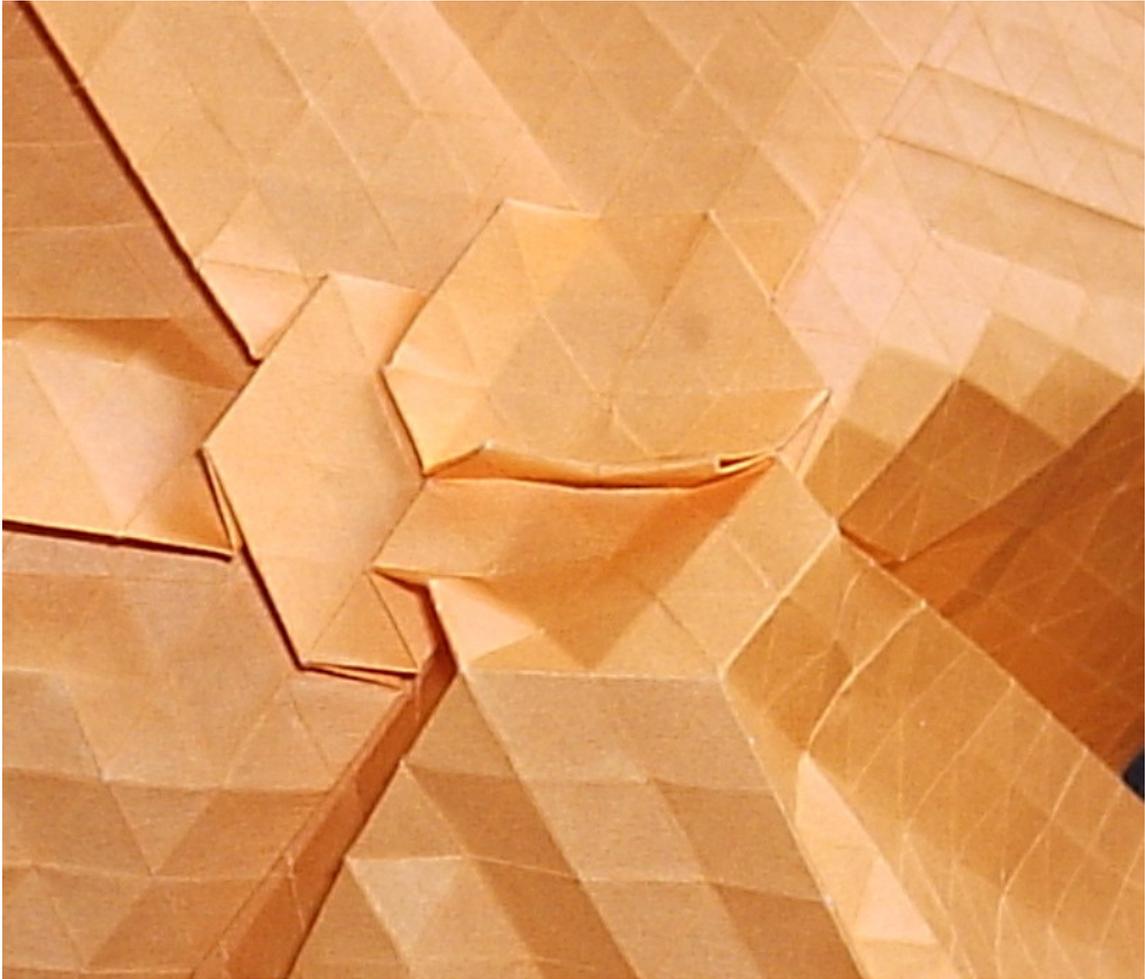

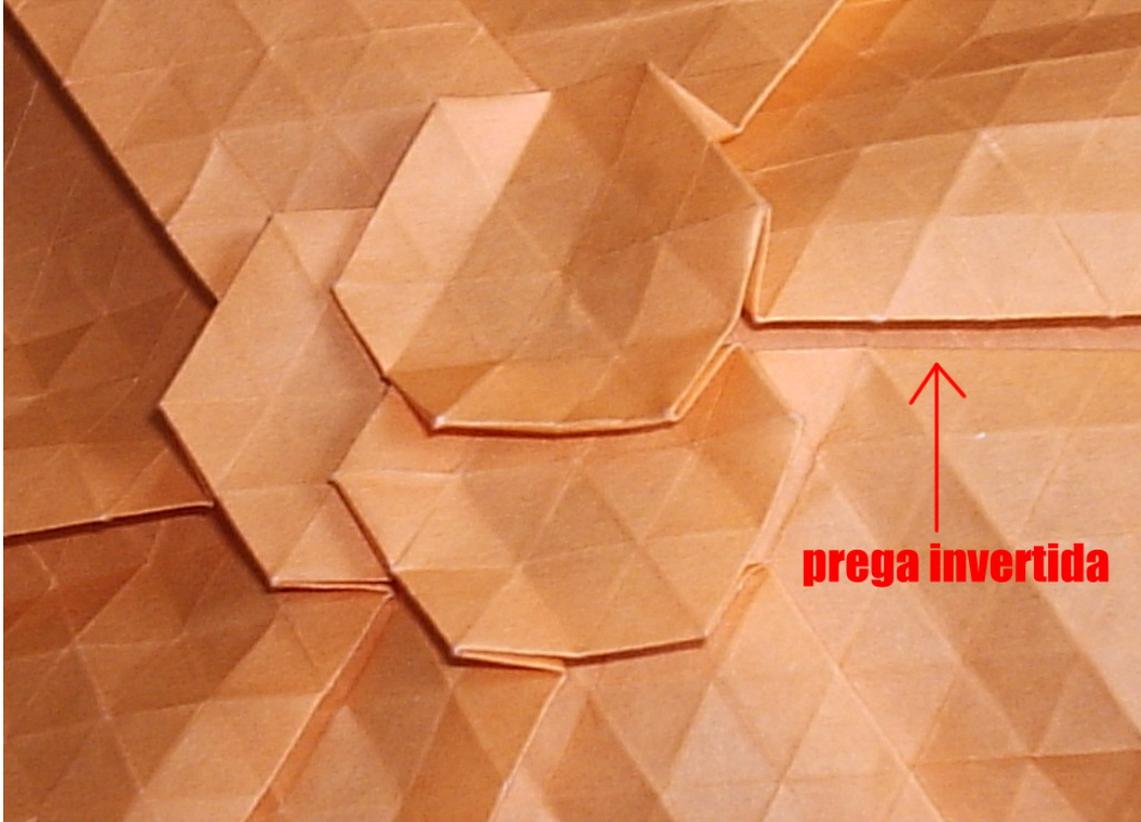

Hexágono pronto. Agora vc vai inverter uma das laterais do hexágono que acabou de fazer:

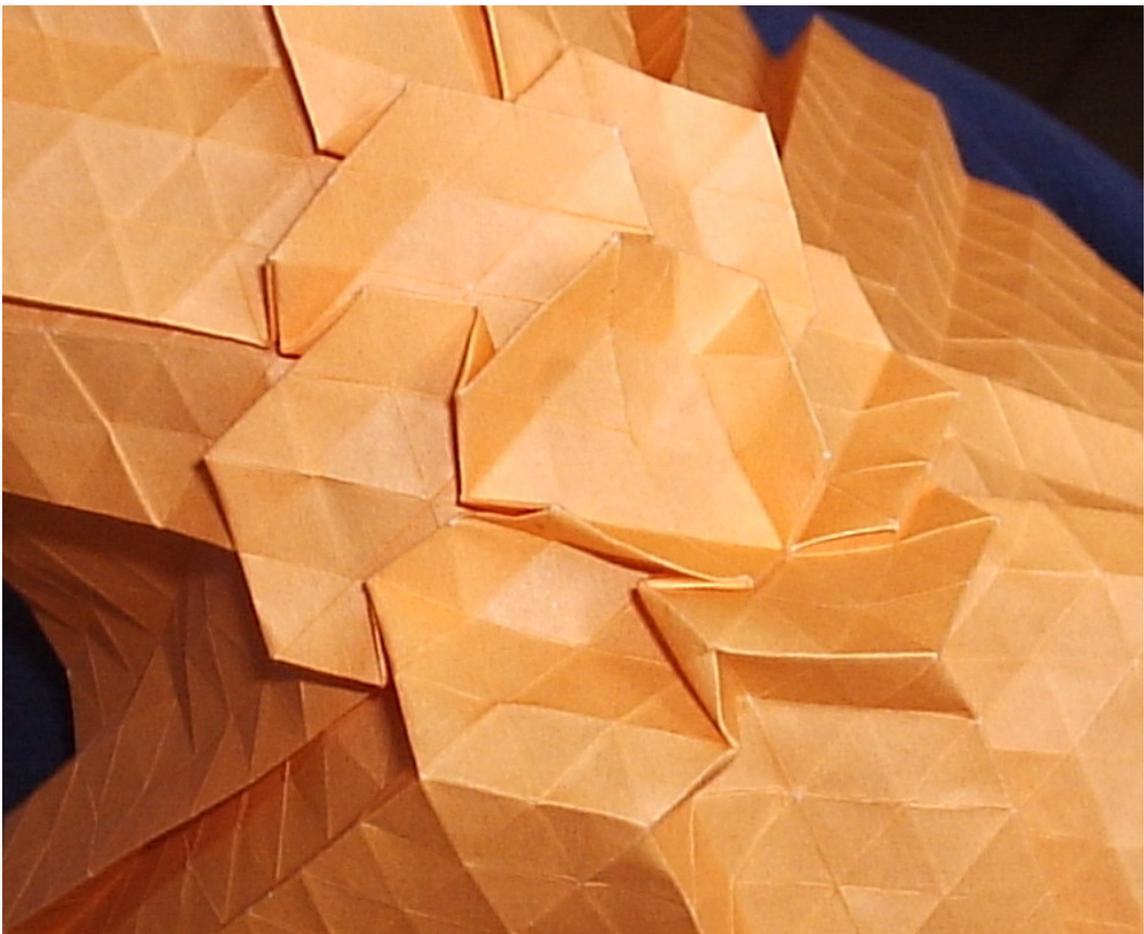

Invertendo a prega seguinte:

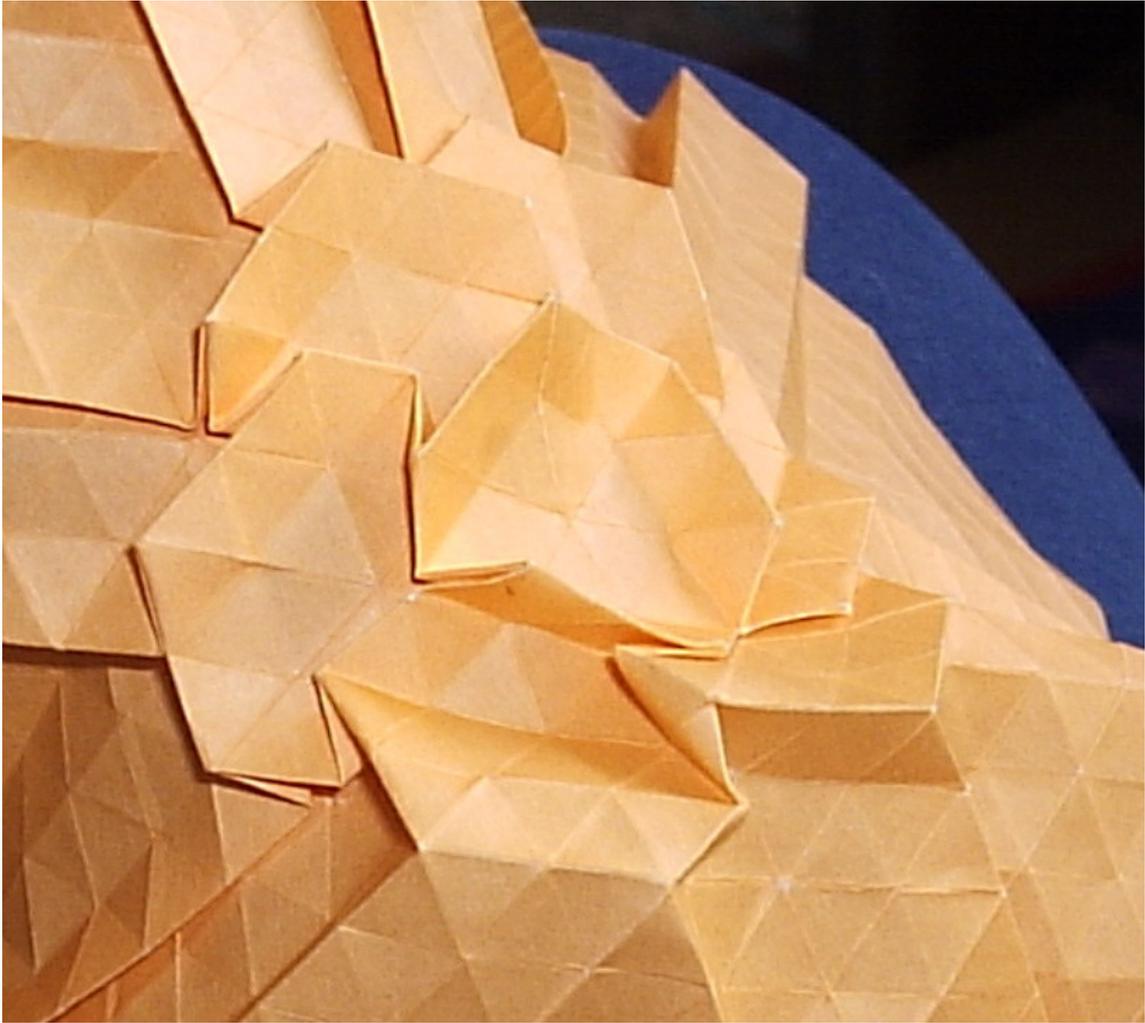

prega invertida

Siga invertendo as laterais dos hexágonos recém feitos e as pregas até completar toda a volta:

As voltas seguintes são iguais. Comece por uma das laterais.
